

## DIY Bubble Wands!

Supplies needed:

Pipe cleaner

& Your imagination!

How to:

- Step one: To create a bubble wand take one end of the pipe cleaner and bend it to form a circle approximately the size of a quarter or whatever size you desire.
- Step two: make sure it will fit inside the jar you selected for your bubble solution. Once you are happy with the size and the shape twist it together tightly so it stays locked in place.

Get creative with your shapes. Have fun with it!
