

# Scavenger

# Hunt

## Nature

Something bumpy!

Something poky.  
Careful!

Something colorful.

Something that smells good!

Something that does NOT smell good.

Something that feels smooth.

Something that feels nice to the touch.

Something green.

Something from a tree.

Something from the ground.

Something longer than your foot.

Something from an animal.

Something that can grow (any type of seed!)

Something that is a treasure to you.

Something slimy!

Go outside on an adventure, and hunt for these items!

Be curious and observe each item mindfully:

- What colors, shapes and textures do I notice?
- How does the object feel? or smell?
- How does this object make me feel?
- How are some of the objects the same?
- How are they different?
