

Space Scavenger

Find the appropriate items for each point!

Hunt!

The Moon:
Something grey and round

The Sun:
Something orange, red and yellow - could be hot!

The Earth:
Something blue and green

A Star:
Something yellow and pointy

The Black Hole:
Something black

An Asteroid:
A rock that looks like it fell from space!

Saturn:
Something that has rings on it!

A UFO:
A place that you think an alien would live

Mercury:
Something brown

A Satellite:
Something that moves around

Be curious and observe mindfully:

- What colours, shapes or textures do I notice?
- How does the object feel? or smell?
- How does the object make me feel?
- Are any objects the same?
- How are they different?
