GOOD NEWS

5th EDITION

November

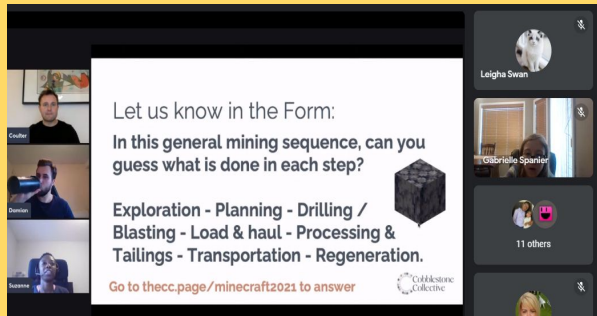

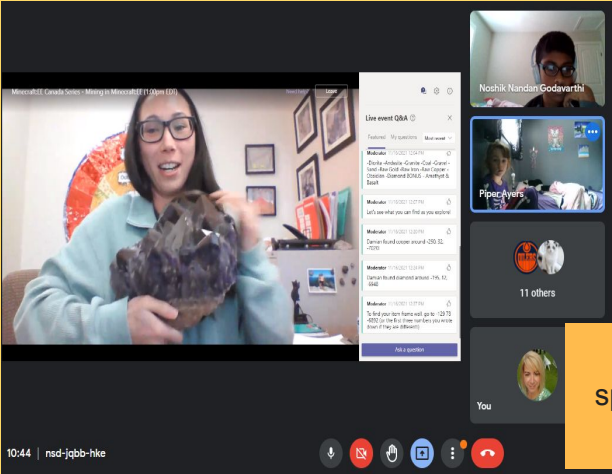

Snow Day Fun!

Parker's (Grade 5) Minecraft creations depicting farming in Alberta/Saskatchewan

Students had the opportunity to listen to guest speakers from a mining and innovation specialist and an in-field geologist with MineralsED.

Nelson Heights School

**Our Girls 'A' volleyball team finished
2nd at Wards and played in Districts
on Nov. 27.**

**These students have been amazing
ambassadors for Nelson Heights!**

Art Smith Aviation Academy

Grow Tower in FULL BLOOM

Mrs. Swansburg's Grade 7 & 8 classes are loving that they get to grow their own food, right in the classroom. Different types of lettuce, Swiss chard, arugula and parsley are just a few of the varieties that have been planted. This tower ties in well with outcomes in Grade 7 Science as well as Grade 8 Health.

A decorative string of lights with yellow, red, and blue bulbs and green leaves, curving from the top left corner.

**Cold Lake
Middle
School**

Cold Lake Configuration is underway for students.

CLMS, NHS and ASAA student representatives had their first Student Steering Committee meeting at the Energy Centre on Nov. 23.

They spent the day exploring and building new and strong foundations for CLMS which will become grades 7-9 school in 2023-2024 school year.

The students had fun meeting new people and learned about how to work together for their educational journey.

Special thank you to Mrs. Stromquist and Mrs. Garner for facilitating this wonderful day.

Aurora Middle School

Students, parents, teachers, and community organizations have teamed up and worked together to keep Aurora's fruit bin program moving forward for the last few months.

Students have been careful washing and sanitizing every piece of fruit for maximum cleanliness and to prevent the spread of germs.

And recently, the President's Choice Children's Charity approved Aurora Middle School to be part of the Power Full Kids Eat Well program, which will bring \$10,000 to the school for healthy eating programs.

Cold Lake High School

**Our new Royals Rock Climbing Club had its first opportunity
be on the Energy Center wall after school.
Thank you, Mr. Sutherland for getting this
new extra-curricular chance for kids up and running!**

Every year, our caretaker, Sharon Dahlseide, decorates all of CLHS.
This year staff helped her do this, and the result was amazing.

Kikino School

Parents as partners means keeping them informed on the day to day learning! Engagement is important! Share respectful home learning opportunities.

Duclos School

Teddy Bear Parade Prep

Our Kinder classes are getting their floats ready for the Annual Teddy Bear Parade!

Also, our Kindergarten classes will once again be collecting teddy bears & toys for the "Bears for Buddies" Toy Drive in support of our community's Santa's Elves Program (a non-profit organization run by the B.C.H.S students). Donations can be made at the school until December 2.

On December 2, the Kindergarten students will be visiting Santa's Elves at BCHS to see them at work!

Hansel & Gretel

We welcomed a Digital Performance of Hansel & Gretel
by the Alberta Musical Theatre Company
on a very snowy November 16th.
Despite it being a snow day and many students being
home, lots took in the virtual performance.

H.E. Bourgoin School

HEB Middle School - Good News

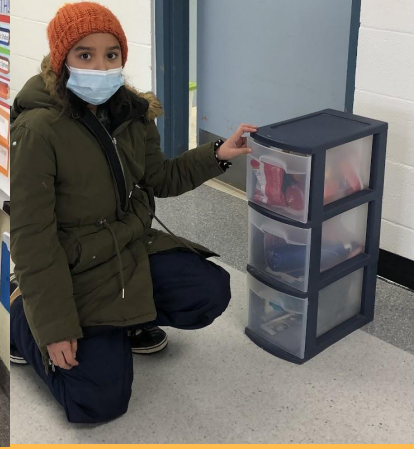

Ms. Bucyk with her Grade 6 band and Grade 7/8 band classes have been learning their instruments and are getting prepared for their Christmas performance!

Our Sr Boys' and Girls' Volleyball teams won at Wards and competed at districts. Our students and staff sent them off with a Pep Rally to support them by rotating classes through the gymnasium to cheer the teams on!

Our students and staff participated in a “Anything but a Backpack” spirit day at school! This fun trend on TikTok allowed students to come to school with a creative replacement for the backpack for the day!

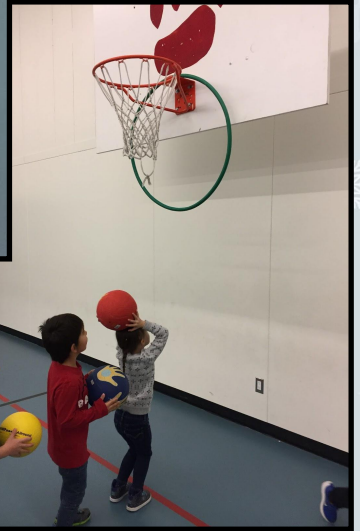

**Cold Lake
Elementary School**

Kindergarteners at Cold Lake Elementary School had so much fun learning about fairy tales for the last month, and wrapped things up with a special Fairy Tale Day.

North Star Elementary School

The weather outside is frightful...

But indoor sports are delightful! Last week the snow had us indoors with some extra time to explore in the big gym. Students enjoyed playing basketball for the first time. We used a hula hoop to increase success and students celebrated making basket after basket!

Another group of students created their own game of baseball using equipment available in the gym.

Thanks!
