ASAA staff and students gathered for our read-a-thon wrap up assembly! 🕶️ Our school raised an astounding \$8,843.40!

Our top 4 readers with the most money raised received a prize and our readers with the most minutes read got to pie a teacher in the face! 🥰

The classrooms with the highest reading minute average will receive a pizza party! 🍕
Congratulations to our winners and a HUGE thank you to our parent council for organizing this for us 📚

CLES Walk-A-Thon

The 2024 CLES Walk-A-Thon was a massive success. We sure appreciate all the heartfelt donations we received - over \$3,000 was raised to help build an inclusive playground! A special thank you goes out to our PAC for organizing this special event - and to all volunteers who came out to help this day! The students had an amazing time outside for potato sack racing, Chuck-A-Duck tossing, giant bubble making, and MORE!! [Check out more pics on Facebook!!](#)

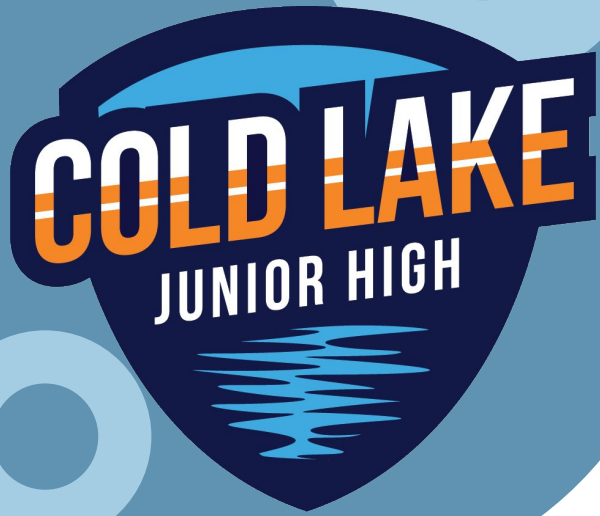

Sports Day

The rain held off and we were able to hold our annual Sports Day last week (at least for the morning)! Every class represented a country and students spent the morning chanting and cheering for one another throughout all of the fun events. Thank you to the many volunteers who helped with our pancake breakfast!

GROWING WITH LOVE IN 4C AT DUCLOS SCHOOL

BACK IN SEPTEMBER MRS. COLLINS AND HER STUDENTS VOLUNTEERED TO TAKE ON THE TASK OF BRINGING NATURE'S GARDEN BACK TO LIFE. THEY CLEANED ALL THE WEEDS AND DEAD FLOWERS OUT. PARENT VOLUNTEERS EVEN CAME IN TO GET THEIR HANDS DIRTY AND THEY ALL ENJOYED SOME FROZEN TREATS TOGETHER. AS SOON AS THE WEATHER BECAME NICE THEY DECIDED TO GET BACK TO WORK AGAIN, WATERING, WEEDING AND PLANTING. THEY TOOK IN ALL THEIR CLASS RECYCLING AND PURCHASED SOME FLOWERS. YOU CAN CERTAINLY NOTICE WHAT A HUGE DIFFERENCE THIS CLASS HAS MADE WITH A LITTLE BUT OF TLC.

🌟 Field Trip Fun in Edmonton! 🌟

Our latest LTA field trip took us to the vibrant city of Edmonton, and what an adventure it was! We explored two incredible places that made our trip unforgettable.

First Stop: Fort Edmonton Park

From the moment we arrived, we were immersed in the rich heritage of the area. Walking through the historic streets, visiting the old-time shops, and riding the vintage streetcar made us feel like we were truly living in the past. The interactive exhibits and friendly staff made history exciting and engaging for everyone.

Next Up: TELUS World of Science

We were blown away by the fascinating exhibits and hands-on activities. From exploring the mysteries of space in the planetarium to diving into the wonders of the human body, every corner of the science center offered something new to learn and experience. The IMAX theatre was a definite highlight, with its stunning visuals and captivating storytelling.

North Star Elementary School

Trickster Theatre

In the last week of May we had Trickster Theatre come to North Star Elementary! This is a travelling theater company who encourages creativity, use of imagination, and cooperation among the students to create an improv skit that was presented to students, teachers, and their parents. Demonstrating resilience, pride, and courage, our students performed their shows with confidence and class, we are so proud!

Mrs. Tata's grade 5 class on rehearsal day! Their prop was a black light, their theme was science fiction. So much hard work went into this production!

Production day, all the students supporting one and other.

Miss. Wall's grade four class practicing. The teachers were so involved in this process, the kids loved the support.

Division Office

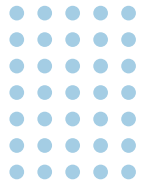

Professional Learning

Grade 4-6 teachers met at CLES to dive into the new science curriculum that will be implemented in the 2024-25 school year.

Chili Cookoff

Division Office staff went tropical with their chili for the Bonnyville Chili Cookoff during Rodeo Week.

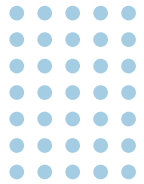

Transportation Highlights

Field Trips: Student Transportation assisted or coordinated with over 120 field trips during the 2023-2024 school year.

Driver Training: By the end of the school year, the NLPS Driving School will have trained 40 people in Class 2S and S. About half work for NLPS.

Thanks!
